This guide explains how to install and use the Meridian 210 Streamer. For the comprehensive User Guide, Datasheet, FAQs, and further product support, please visit: meridian-audio.com/210

1. SELF-ADHESIVE FEET

Fix the four self-adhesive feet to the base of the product, which is printed with circles as a guide.

The feet will not be needed if you are mounting the unit on a rack tray; for details see the *210 User Guide*.

2. POWER UP THE 210

Power up the 210 with the supplied power cable.

3. CONFIGURE THE 210

Download the **Meridian Control** app. The app is available for iOS devices from the Apple App Store and for Android devices from the Google Play Store. In either case search for **Meridian** to find the app or scan the QR code shown here.

When the app is run for the first time it walks you through the 210 Streamer's simple installation process. This shows you which connections should be made, and explains the options for connecting the product to your network.

In addition, the app can be used to control the product, and provides access to a number of advanced features.

4. CONTROL THE 210

The **Meridian Control** app provides an intuitive way of controlling the 210.

If the 210 is part of a Meridian system, the app allows you to control source selection, on/off, and volume, and displays the status of these settings.

5. PLAY AUDIO VIA SPOTIFY CONNECT OR ROON

Once the 210 is connected to your network it will be listed as an available output device in the Spotify Connect or Roon app. Select the 210 to play music to the 210. You can adjust the volume and control music playback from the device running the streaming app.

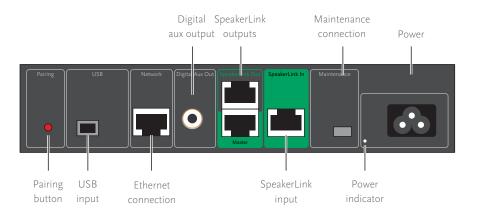

6. PLAY AUDIO VIA BLUETOOTH® WIRELESS

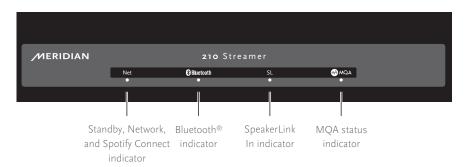

Press the **Pairing** button on the back-panel to pair with the 210 from a Bluetooth device such as a phone, tablet, or computer.

The 210 will appear as **210** followed by a 12-character identifier, but you can choose your own name using the **Meridian Control** app; see *Step 3* above.

Note that the Meridian Control app also communicates with the 210 via Bluetooth, so you may see up to two references to the 210 in the list of Bluetooth devices. For more details see the 210 User Guide.

IMPORTANT SAFETY INSTRUCTIONS

- Read the instructions.
- · Keep these instructions.
- · Follow all instructions.
- Do not use this apparatus near water.
- · Clean only with a dry cloth.
- · Install only in accordance with the manufacturer's instructions.
- · Refer all servicing to approved service personnel.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPARATUS TO RAIN OR MOISTURE.

This apparatus has been designed with Class 1 construction and must be connected to a mains socket outlet with a protective earthing connection (the third grounding pin).

This apparatus does not include a power switch. The apparatus may be isolated from mains power either by unplugging the power connector from the rear of the unit, or by unplugging the connector at the opposing end of the power cord or cable from its supply outlet. As a result, either or both of these connectors should remain accessible.

SAFETY WARNINGS

Caution: to reduce the risk of electric shock, do not remove cover. No user serviceable parts inside. Refer servicing to qualified service personnel.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

IP20 EQUIPMENT

CLIMATE

The equipment has been designed for use in moderate climates and in domestic situations.

Only use at an altitude not exceeding 2000m.

SAFETY WARNINGS

- · Do not expose the unit to dripping or splashing.
- Do not place any object filled with liquid, such as a vase, on the unit.
- · Do not place naked flame sources, such as lighted candles, on the

TO AVOID OVERHEATING

- · Do not position the product in direct sunlight.
- Do not position the product near heat sources, such as a radiator.
- Leave at least 10cm around the product to ensure sufficient ventilation.

TO AVOID INTERFERENCE

• Do not position the unit near strong electrical or magnetic radiation, such as near a power amplifier.

RADIO INTERFERENCE

FCC Warning: This equipment generates and can radiate radio frequency energy and if not installed and used correctly in accordance with our instructions may cause interference to radio communications or radio and television reception. It has been type-tested and complies with the limits set out in Subpart J, Part 15 of FCC rules for a Class B computing device. These limits are intended to provide reasonable protection against such interference in home installations.

EEC: This product has been designed and type-tested to comply with the limits set out in EN55032:2015 and EN55024:2010 + A1:2015.

This product meets or exceeds the Hi-Res audio standards for digital and analogue processes as defined by the Japan Audio Society.
